ABOUT THE BOOK

[Laugh More, Yell Less: A Guide to Raising Kick Ass Kids](#)

by Dr. Robert Zeitlin

Parenting is a thankless task. Kids just don't come with a manual. As a working father raising two teenagers, I know how little support there is for parents. Having worked with youth (and raised my own kids) for almost 20 years, I have searched for ways to slow things down and savor the moment more.

Laugh More, Yell Less is written for parents who are looking for practical ideas that they can use today. It is full of honest stories about how I gained more control over my life. This book is different than the typical blame-game parenting book: it's not about fear and red flags. We need to work together to grow the kick-ass kids that the world needs. I want to inspire you to raise the kids who are going to save our planet and put things right.

ABOUT DR ROBERT ZEITLIN

I am on a mission to help parents raise kick-ass kids. Growing up, nothing compared with my excitement on Saturday morning when The Superfriends came on the television. Batman, Wonder Woman, Superman, and Aquaman needed to work together to solve the biggest problems that the world faced. Those lessons stuck with me. My wife and I are proud to have raised great kids who are creative and think critically. They are going to do some great things in the world. But they won't be able to do it alone. We are going to need a critical mass of kids who stand up for what is right, who collaborate, communicate, and listen. I want to inspire parents to create a family where kids hear more laughter and less yelling, feel comfortable taking risks, and feel safe enough to find their own strengths and learn to fly.

“Love, Love, Love the book! Perfect mix of great information, though-provokers, humor, stories, and insight!”
